Run He

Email:202320160030@mail.scut.edu.cn | Tel:+86 15728516816

Research Interests: Machine Learning, Continual Learning, Federated Learning, Large Language Model

Education

South China University of Technology (SCUT) Guangzhou, China

Master Student of Engineering in Control Science and Engineering Sept. 2023 - June 2026

- **Supervisor**: Huiping Zhuang
- **GPA**: 3.74/4.0

South China University of Technology (SCUT) Guangzhou, China

Bachelor of Engineering in Robotic Engineering Sept. 2019 - June 2023

- **GPA**: 3.98/4.0 (Fully English-taught undergraduate program)
- **Rank**: 1/45

Publications

[1] **Run He**, Di Fang, Yicheng Xu, Yawen Cui, Ming Li, Cen Chen, Ziqian Zeng, Huiping Zhuang*. "Semantic Shift Estimation via Dual-Projection and Classifier Reconstruction for Exemplar-Free Class-Incremental Learning." **ICML 2025** (accepted).

Research Projects

Continual Learning in Complex Scenarios Jan. 2024 - Dec. 2026

National Natural Science Foundation of China Youth Science Fund Project Participant

- Developed a continual learning framework based on least-square solutions to overcome the **catastrophic forgetting, privacy concerns and difficulty in cross-scenario applications**.
- This framework enhanced the continual learning in both representation learning and classifier learning, extending the existing analytic methods to various scenarios including **few-shot learning, online learning, and generalized continual learning**.
- Technical achievements in this project are summarized in papers **[1][3][4][5][6][7][10]**.

Mitigation of Catastrophic Forgetting in Large Language Models Finetuning July 2024 - July 2025

Xiaomi Open Innovation Challenge Program Participant

- Developed an analytic routing mechanism for continual learning of LLMs in different domains. The learning of each vertical domain utilizes a distinct LoRA model, thereby achieving **no interference across domains**.
- The router is designed as a linear classifier with the input of embeddings extracted by the shallow layer of LLMs and is trained by recursive least-square to **achieve non-forgetting**.
- Results are summarized in paper **[11].**

Awards

Student Awards

- Outstanding Undergraduate Thesis Award June 2023
- The Second Prize Scholarship of South China University of Technology Dec. 2022
- “Triple Excellence" Student Award of South China University of Technology Dec. 2021
- The First Prize Scholarship of South China University of Technology Dec. 2021

Competition Awards

- First Prize, “Hongping Changqing Foundation" Student Science and Technology Innovation Competition Nov. 2022
- Second Prize, Guangdong Division of China Undergraduate Mathematical Contest in Modeling (CUMCM) Oct. 2022
- Meritorious Winner, Mathematical Contest in Modeling/Interdisciplinary Contest in Modeling (MCM/ICM) May 2021

Academic Service

- **Reviewer**: Knowledge-Based System, NeurIPS 2025

Teaching Assistant

- Deep Learning, graduate course Spring 2025
- Deep Learning, graduate course Spring 2024
- Natural Language Processing, undergraduate course Spring 2023

Campus Involvement

Director of Academic Affairs, Student Union of SCUT June 2021 - June 2022

- Led the planning and execution of the 15th "Debate on Campus" (Bian Zai Hua Yuan) Inter-School Debate Tournament, co-organized the 273rd "Century Kapok" (Shi Ji Mu Mian) Academic Lecture Series.

Academic Affairs Coordinator, Student Union of Junde College, SCUT Sept. 2020 - June 2021

- Assisted in the 1st “Cosmos Cup" (Lun Yu Bei) Debate Competition and the 1st “Odyssey of the Mind (OM)" Innovation Challenge at Junde College, SCUT.
